This letter has just been received from Don H. Donoghue, M. D., who gave us that wonderfully illustrated lecture June 24.

"Dear Mr. Cramer:

I have your note, including the check, for which I thank you very much.

I don't know when I have addressed a meeting which I personally felt was more successful than my talk to your group on Sunday morning. It was a very attentive, appreciative group, and I want you to know that I am in complete sympathy with the purposes behind the organization. I think it should be expanded, and I hope that in your succeeding programs you can arrange to have discussions by other doctors who are interested in athletic injuries, since I think the closer we are to each other the better understanding there will be, and in the long run, the better treatment the athlete will get.

If I can be of any service to you in helping you obtain someone, or recommending the society to some medical man, please don't hesitate to call on me.

Sincerely,

Don H. O'Donoghue, M. D."

The Directors voted to hold the 1952 convention in Kansas City, Missouri, on June 20 and 21, Friday and Saturday. Members are urged to arrive Thursday, June 19th for committee meetings.

I have purposely held up mailing this report because so many trainers were away from their homes on vacation and other work. Now that schools are opening — here it is.
